MAHAN CONFESSES.

His Mind Was Befogged by Drink. After Confession Says He Felt Relieved.

Albert Mahan made a written confession Wednesday that he had murdered his niece, little Ethel Mahan, on Sunday. He was told that it would be used against him, but he insisted upon making it.

He started off, "I did it," and then described the details of the murder. He said he was afraid the girl would tell her mother, and so he took a razor from his pocket and slashed her throat.

He said he went to Walloomsac, N. Y., on Saturday, getting a pint of whiskey and a pint of gin. He drank all of the whiskey on Sunday and part of the gin, and his mind was befogged when he committed the deed. After he had killed the child he finished drinking the gin.

After the confession he said he felt more relieved than at any time since the murder. He asked for something to eat and was given it. The confession was made in the presence of State's Attorney W. J. Meagher and City Judge E. L. Bates. He was given a preliminary hearing yesterday and will be held for the grand jury.

Smallpox at West Berlin.

West Berlin has been thrown into a fever of excitement over 15 or 20 cases of smallpox and it is probable that many other persons have been exposed. Drs. W. B. Maynard and G. F. Hubbell are the attending physicians.

About two weeks ago a few cases of what was supposed to be chicken pox broke out and several houses were quarantined Tuesday. Becoming suspicious, the physicians summoned Dr. H. D. Holton of Brattleboro, secretary of the state board of health, who pronounced the disease smallpox. All the schools have been ordered closed and a strict quarantine has been established. Some of the cases are rather serious. It is not known where the disease originated or how it was brought.

Four of the victims live out of the village. They are Mr. and Mrs. Fred Rice and sons, Frank and Guy. Those in the village include Mr. and Mrs. Fred Adams, John Cronney, Charles Leonard Mrs. W. C. Keyes, Bert Dove, and the little daughter of David Dawson. There are other suspicious cases which may be smallpox.
